

ABILASH C

Front End Developer | Web Development | JavaScript | React.js | SQL | UX

✉ abilashab017@gmail.com

☎ 9003591534

📍 Chennai, India

Profile Summary

- 🕒 Frontend Engineer with **2.5+ years of experience** developing responsive and user-friendly web applications using **JavaScript, React.js, HTML, and CSS**, with a focus on reusable components and clean, maintainable code.
- 🕒 Experienced in translating business and design requirements into **intuitive, responsive, and accessible user interfaces**, with a good understanding of UX principles and cross-browser compatibility.
- 🕒 Proficient in working with **REST APIs, SQL, JSON, Git, and browser developer tools** for application integration, data validation, debugging, and troubleshooting.
- 🕒 Experienced in **Agile/Scrum environments**, actively participating in sprint planning, backlog refinement, daily stand-ups, reviews, retrospectives, and cross-functional collaboration.
- 🕒 Good understanding of the **SDLC**, including requirement analysis, development, testing, code reviews, debugging, and deployment.
- 🕒 Strong **problem-solving, communication, and collaboration skills**, with the ability to work effectively with developers, designers, product teams, and stakeholders.

Technical Skills

- 🕒 **Programming Languages:** JavaScript, TypeScript, SQL
- 🕒 **Frontend Development:** React.js, HTML5, CSS3, Responsive Web Design, Component-Based Development
- 🕒 **UI/UX:** UI Development, UX Principles, Accessibility, Cross-Browser Compatibility
- 🕒 **Web & API:** REST APIs, JSON, API Integration, Browser Developer Tools
- 🕒 **Version Control:** Git, GitHub, GitLab
- 🕒 **Development Tools:** VS Code, Visual Studio
- 🕒 **Testing & Debugging:** Browser DevTools, Unit Testing, Functional Testing, Debugging
- 🕒 **Build & Package Tools:** npm, Maven
- 🕒 **Cloud & Deployment:** AWS, CI/CD Fundamentals
- 🕒 **Agile & Collaboration:** Scrum, Sprint Planning, Backlog Refinement, Code Reviews, Jira
- 🕒 **Database Testing:** MySQL, PostgreSQL
- 🕒 **Database:** MySQL, PostgreSQL

Education

- Bachelor of Computer Science | Alagappa University | 2021- 2023 | GPA: 7.135

Certifications & Awards

- 🕒 Best Performer award for two continuous quarters of year 2024-2025 in Jargon MisFits Change Makers pvt ltd.

Professional Experience

Mar'24 – Present | Jargon MisFits Change Makers Private Limited | Front End Developer

Key Accomplishments:

- 🏆 Improved application performance by developing a dynamic **Country → State → District** selector with on-demand API calls, reducing unnecessary data fetching, API response times, and form load times.
- 🏆 Enhanced page performance and user experience by implementing **lazy loading** for images, reducing initial page load time and optimizing resource utilization.
- 🏆 Improved perceived application responsiveness by introducing **skeleton loading states** for asynchronous API operations, providing better user feedback during data retrieval.
- 🏆 Increased UI consistency and development efficiency by creating reusable React.js components and shared functionality used across multiple screens and forms.
- 🏆 Enhanced user productivity through implementation of customizable **drag-and-drop list reordering** with persistent storage via API integration.
- 🏆 Standardized user guidance and validation feedback across the application using reusable tooltip components, reducing duplicate UI implementations and improving usability.

Responsibilities:

- ❖ Designed and developed a custom **React.js + Summernote Rich Text Editor** featuring Emoji Picker, @Mentions, Image Upload/Gallery, custom toolbar controls, text formatting, RTL/LTR support, and content preview functionality.
- ❖ Built reusable and accessible **React.js dropdown components** using Headless UI and Tailwind CSS, supporting keyboard navigation, dynamic options, search capabilities, loading states, and customizable styling.
- ❖ Implemented dynamic location selection workflows with cascading Country, State, and District data retrieval through optimized API integrations.
- ❖ Integrated **Tippy.js** to develop reusable and configurable tooltips, contextual help features, and validation feedback mechanisms.
- ❖ Integrated **SortableJS** to deliver reusable drag-and-drop capabilities for list management and item reordering across applications.
- ❖ Collaborated with backend APIs to optimize data loading strategies, improve frontend performance, and ensure seamless user experiences.
- ❖ Developed reusable, scalable, and maintainable React.js components following modern UI/UX and accessibility best practices.
